

# MiMiR

# JUST Experience

*Dr. Mohammad Malkawi*

# JUST KPI

- **Jordan University of Science and Technology**
- Number of faculty members: **920+**
- Number of publications per year per faculty member (over 5 years period): **0.61**
- Number of graduate programs at the university: **97 programs**
  - Ph.D. programs: 00
  - MS programs: **97**

# JUST KPI

- Number of research institutes and/or centers at the university: **10 centers**
  - Disciplines covered by the centers
    - Academic Development and Quality Assurance Center
    - Center of Excellence for Innovative Projects
    - Consultative Center for Science and Technology
    - Computer and Information Center
    - Dental Teaching Clinics
    - Pharmaceutical Research Center
    - Queen Rania Al-Abdullah Center for Environmental Science and Technology
    - Language Center
    - Princess Haya Biotechnology Center
    - Nano-Technology Academy
  - Total revenue produced by the centers (if any): **700,000 + JD**

# JUST KPI

- Total research budget per year allocated for research project funding: **3.5+ million**
  - University funding: **2.0+ million JD per year (5 years period)**
  - National funding: **0.75+ million JD per year (5 years period)**
  - International funding: **0.68+ million JD per year (5 years period)**
- Number of research awards received by faculty members of the university: **160+**
  - Areas of the award: Engineering, **Medicine, Architecture, Pharmaceutical, IT**
  - Money value of the award: **.26+ million JD**
  - Number of patents: **13**

# JUST KPI

- Number of journals issued by the university: 3
  - Disciplines covered by the journals: **Civil engineering, Pharmacy, Medical Sciences**
  - Indexing of the journal: **Scopus, ISI**
- Number of conferences organized by the university: **9**
- Ranking of the university
  - National ranking:
  - Regional ranking: **QS (10), Green Metric (1)**
  - International ranking: **QS (601-650); Times (600-800), Green Metric (49)**
- Number of spinoff companies created by each university: **1 spinoff**

# Impact of MiMiR Project on Jordan Universities

- **Sustainable research programs**
  - A continuous supply of graduate students for the various programs at affordable COS
  - A stable and qualified faculty members
  - A stable and sufficient funding for research projects
- **Collaboration with industry**
- **Internationalization**

THANKS
